EV Charging FAQs

Thank you for choosing to charge your EV with us today. Please find below some FAQs which will guide you through the charging process.

How do I start?

- 1. To access the charge point, please download the Wattif EV IE App**
- 2. Plug In** – Connect your EV charging cable to the charge point, then the vehicle
- 3. Activate** – To start charging, open the Wattif EV IE App on iPhone or Android. Scan the QR code, located at the charger, to activate charging
- 4. Charge** – Once finished, unplug from the vehicle first to allow cable lock to release.

Do you have a RFID?

If you have been issued an RFID card/fob, plug in cable and use the reader on the charger

How much will it cost?

The cost per KWh (kilowatt-hour) is approx. €0.65 (price correct as of May 2024). The current price will be displayed live when connected to our app.

Still need help?
